

## Squam Lakes Natural Science Center Animal Care Internship

### About Squam Lakes Natural Science Center

The mission of Squam Lakes Natural Science Center is to advance understanding of ecology by exploring New Hampshire's natural world. Through spectacular live animal exhibits, natural science education programs, guided Squam Lake Cruises, an informal public garden, and Blue Heron School, a nature-based Montessori early learning center, the Science Center has educated and enlightened visitors since 1966 about the importance of our natural world. Squam Lakes Natural Science Center is located on Route 113 in Holderness, an easy drive from exit 24 off I-93, and public trails are open daily from May 1 through November 1 with programming throughout the year. The Science Center is accredited by the Association of Zoos and Aquariums (AZA) and is the only AZA-accredited institution in all of northern New England. For further information about the Science Center, call 603-968-7194 or visit [www.nhnature.org](http://www.nhnature.org).

### Position Purpose and Summary

Squam Lakes Natural Science Center's Animal Care internship is an opportunity to learn and grow while gaining experience in native wild animal husbandry at a nationally accredited nature center. The Animal Care Intern assists staff with all aspects of caring for the Science Center's animal ambassadors. The Animal Care Intern also gains experience with interpretation by presenting *Up Close to Animals* programs about native New Hampshire wildlife.

### Internship Experiences

- Animal observations and record keeping
- Animal handling, capture and restraint
- Proper diet preparation and distribution
- General husbandry of animal and keeper areas
- Proper Association of Zoos and Aquariums protocols, policies, and procedures
- Animal training and enrichment
- Basic avian wildlife rehabilitation
- Training in environmental education and interpretation techniques
- Opportunity to receive First Aid/CPR certification
- Present *Up Close to Animals* – short, live animal presentations in trailside amphitheater
- Assisting with special events, and additional duties as assigned
- Complete a final project in animal training or enrichment under the guidance of animal care staff

### Requirements

- College junior/senior status or graduate student with a major in biology, zoology, natural sciences, or related field
- Enthusiasm, motivation, strong time management, and a desire to work with people and animals
- Ability to effectively communicate with staff and volunteers
- Appropriate footwear is required (e.g., work boots, hiking shoes) and outerwear is required for all weather conditions (e.g., cold, rain, wind)

Squam Lakes natural Science Center  
PO Box 173, Holderness NH 03245 \* 603-968-7194 \* [nhnature.org](http://nhnature.org)
